The University of Florida Literacy Institute (UFLI) will comprehensively review the UFLI Foundations' explicit and systematic phonics program. This will include a brief overview of the program, a review of essential background knowledge needed for implementation, and an overview of the manual and materials needed. Each lesson step will be covered in-depth with an opportunity to practice the newly learned strategies. Finally, there will be a brief overview to progress monitoring and differentiation.

This learning opportunity will provide participants with the information required to implement the UFLI Foundations effectively in their classrooms.

UFLI Presenters were directly involved in the development of the UFLI program and are working with the University of Florida.

This session will be recorded and available for 30 days.
