Learning Opportunity

This one-hour workshop is designed to help parents learn practical ways to support their child's language and literacy development at home. The session will focus on helping parents understand how children learn language, how to create a supportive environment for language growth, and how to use everyday activities to build vocabulary, reading, and writing skills. Through this hands-on workshop, parents will learn how to:

- Encourage your child to use English confidently while valuing and supporting their home language.
- Create opportunities for meaningful conversations and language practice in your daily routines.
- Use simple, interactive techniques to help your child build vocabulary and improve literacy skills.

Presenters

Kathy Salmon

Dr. Kathy Salmon founded Aspire Education Consulting in 2023 after retiring as a principal with 23 years at the Calgary Board of Education (CBE). She held various leadership roles with CBE and was seconded to Alberta Education twice, where she was co-writer of the EAL Proficiency Benchmarks, and developed EAL resources. Her consultancy supports Alberta school districts and international schools in Cambodia, China, and Macao in creating effective learning environments for diverse learners, with a focus on EAL, literacy, and oracy. Her doctoral research explored effective teaching practices for EAL learners in Alberta.
