### Learning Opportunity

**Did you attend the successful *Do You Speak Tech? 1.0* PD event in 2016?**

Participants at that event were overwhelming in their request for a follow-up session.

SLIC's response? **Great idea!**

The Second Languages and Intercultural Council (SLIC) of the Alberta Teachers' Association is thus offering a FREE hands-on professional learning opportunity focused on playtime with the "Best of the Best" learning technologies for the second language classroom. Great news: even if you missed the 2016 event, you can still 'play' along!

***This session is BYOD (Bring Your Own Device) as well as an extension cord/powerbar if needed.***

***Please note that laptops, Chromebooks, tablets, etc. will not be provided. There will be lots of active learning in this session, so you will need your device!***

***Teachers are required to become a SLIC member to attend. Follow this link: <https://www.smore.com/bt7et>***

Lunch included. Please do not bring outside food/drink into the venue.

---

### Presenters

Norman Sieweke & Julie Marko

Norman and Julie are second languages consultants. Both have extensive experience working with integrating innovative technologies into the L2 classroom.

---
